

Continuum Green Energy Limited receives further investment of US\$67.5 million from Just Climate

Mumbai, India - 31 March 2026

Continuum Green Energy Limited (Continuum) refers to the previous announcement made on 11 March 2026 and wishes to announce that the transactions contemplated under the definitive agreements whereby Just Climate, along with co-investment by one of its limited partners, agreed to invest INR equivalent of US\$67.5 million in primary capital in Continuum has been completed.

Continuum has also withdrawn the Draft Red Herring Prospectus filed with the Securities and Exchange Board of India.

About Continuum Green Energy

Continuum Green Energy, founded by Arvind Bansal and Vikash Saraf in 2009, is primarily focused on supplying green energy to commercial and industrial consumers through a portfolio of renewable energy generation assets in India. Its vibrant team of over 400 full time employees are focused on delivering high commercial and green value to its over 180 customers by building efficient, utility scale wind-solar hybrid energy projects and adding energy storage capacity in future. USD denominated senior Green Notes by affiliates of Continuum are listed on The International Exchanges in India and Singapore Stock Exchange.
